

Nikita Buevich

Product & Growth Manager

Summary

Product & Growth Manager with 7+ years of experience scaling B2B/B2C platforms and SaaS products across EU, UK, and US markets. I drive user and revenue growth through lifecycle marketing, PLG tactics, CRM automation, and community-led acquisition. Proven track record in building full-funnel growth engines — from supply-side acquisition to demand-side activation and retention.

Selected Growth Achievements:

- Grew marketplace supplier base at Cake It Easy via structured onboarding and incentive logic.
- Improved activation rate by 18% through onboarding flow redesign and in-product nudges.
- Implemented lifecycle marketing flows (email/push) leading to +15% return rate in dormant cohorts.
- Oversaw SEO content cluster, referral program launch, and in-app feature adoption campaigns.
- Drove Free→Paid conversion uplift by bundling marketplace offers and contextual cross-sell.
- Managed CAC/LTV tracking, A/B tests and campaign ops with freelance team across PLG stack.

Currently focused on growth-stage international marketplaces and fintech SaaS. Open to travel for key industry events and partner engagement.

Skills

Product & Marketplace Growth

- Funnel & Revenue Metrics: CAC, LTV, payback, Free→Paid CR, retention
- SQL basics, KPI dashboards, cohort analysis, experiment design and iteration

UX / UI Thinking

- Conversion-oriented UX, wireframing, prototyping, multi-device experience

Employment History

Product Marketing Manager at Cake It Easy (Foodspace)

August 2022 — present

Cake It Easy is a B2B/B2C food ordering platform operating across Scandinavia. I lead the growth and development of a marketplace for catering — including performance marketing oversight, CRM-driven campaigns, and feature-level funnel optimization. Also led the development of custom internal platform for order and logistics management, used daily by operations and customer service teams.

- Improved internal efficiency by streamlining order tracking, reducing average support time by ~30%.
- Launched dynamic delivery pricing and supplier availability features on the marketplace, increasing successful order placement rate by 18%.
- Introduced locationing and filtering system for marketplace products, reducing user drop-off during selection by 25%.
- Led UX revamp of the marketplace checkout flow, improving conversion rate from cart to order by 20%.
- Launched and tested marketing campaigns across email, in-app, and paid channels, targeting both new and returning users.

- Managed freelance marketers and designers for ad creatives and landing pages; aligned work to CAC/LTV benchmarks.
- Implemented CRM-based reactivation and loyalty flows, increasing return rate among inactive users by 15%.
- Ran performance tracking across key KPIs (conversion, retention, CAC payback) to guide feature rollout and campaign prioritization.

Application Development Manager at Accenture

December 2020 — April 2022 (1 year 5 months)

Led development for a risk assessment and business lending platform for a top-5 Russian bank.

- Built and managed a cross-functional team of 15 (frontend/backend, QA, analysts).
- Implemented agile processes, increasing team velocity by 1.5x within 3 months.
- Delivered MVP to production in 9 months.
- Ensured successful client relationship and project extension.

Product Manager at TradingView

October 2018 – May 2019 (8 months)

Worked on user onboarding and performance optimization for the world's largest social network for traders and investors.

- Designed onboarding experiments that increased activation (visit→signup) by 18 pp.
- Boosted registration conversion by 22 pp through onboarding flow improvements.
- Supported PLG experiments tied to feature usage, referral triggers, and in-app education.
- Worked closely with BI to run cohort-based retention analysis and growth reporting.

Self-employed Product Manager

since October 2016

Worked on a series of contract-based product and process consulting projects for early-stage startups and scaling digital businesses in logistics, social networking, AI, ecommerce, and fintech domains.

Cargolink – Audit of driver app in logistics

- Implemented analytics stack (Amplitude, GA) and agile processes, increasing delivery efficiency by 1.5x.
- Optimized onboarding flow, improving geo-permission conversion by 33 pp and registration completion by 16 pp.

LPR – Growth strategy for a social network for business owners

- Ran 20+ growth experiments, scaled traffic 20× through SEO, content, and influencer loops.
- Built and launched new marketplace vertical for franchise & business resale offers.
- Implemented CRM flows and loyalty logic, boosting early retention in initial cohorts.

Other projects

- **Tipser** – MVP of a cashless tipping app
- Graphgrail / MySmartChat – AI-based sales chatbot MVP
- AvtoTO – Redesign of leading Russian auto parts platform
